Harrisburg, PA 17105

To Whom It May Concern,

South Fayette Township is dedicated to improving and expanding its community park spaces. We understand the importance and value in creating accessible spaces for community members to enjoy the outdoors, and outdoor recreational activities.

The Township is submitting a \$317,452.50 grant request to install the township's first community spray park in Fairview Park, as part of a Phase 2 of development on the recently acquired Mayview State Hospital site. The Township will contribute \$317,452.50 of matching funds towards the overall \$634,905 project.

South Fayette Township strives to enhance and improve community parks. We thank you for the grant opportunity and look forward to implementing the playground rehabilitation project.

Sincerely,

John M. Barrett
Township Manager
