

## Variance

To GHartz@sftwp.com <ghartz@sftwp.com>

Hi Gary

I hope this is what you were looking for?

This is what we are requesting for Variance additional square footage for signs on the Side, signs on the Front and signs on the Back of building.

Also to have sign project more than 12". We are asking for an additional 36" of projection off wall to make sign more visible form front and back of building.

The total square footage of all signs allowed is 78'

Front sign elevation

We have the Primanti Bar and Restaurants total square footage 58.77

2 tag line signs each are 38.01 sq footage for a total 76.02 these are flat non illuminated graphics painted on the wall

Total all signs on front..134.79

Side sign elevation

We have the Primanti Bar and Restaurant total square footage 58.77

1 to go sign projecting 48" from building total square footage 19.47

Total all signs on side 78.24

Back sign elevation

We have tag line flat painted on wall total square footage 128.88

Total square footage of all signs 341,91 allowed 78 square footage asking for an additional 263.91 square footage.

Please let me know if you need additional information?

Thank you Joel McLaren
